

# Un-war Space Lab: Drava Reflections

== Decoding Drava ==

8 July–6 August 2022

artKIT

You are cordially invited to the opening of the interactive video installation by **Un-war Space Lab (Armina Pilav, Damir Ugljen)** which will take place on **Friday, 8 July 2022, at 7 p.m.** at the **artKIT Gallery**. On **Saturday, 9 July, at 7 p.m.**, we kindly invite you to join us for a shared evening by the river where we will collectively listen to the Drava underwater sounds, read short stories and watch a collection of short films. For the exact location, visit [kibla.org](http://kibla.org) on the day of the event.

*Decoding Drava* is an attempt to step into the complex tensions around its waterbody and a result of *Drava Reflections*, a shared process of looking at the river exploitations for electricity production or other uses, and their consequences on the Drava water body through its relational ecologies. The intermedia tools and site-specific research on existing flora and fauna are used to reflect on multiple anthropogenic influences to create this XR project which brings together past, present and speculative future scenarios.

Admission is free.
